LETTER FROM THE CHAIRMAN OF CARRWOOD PLC

CARRWOOD PLC

(Incorporated and registered in England and Wales under the Companies Act 1985
(as amended) with registered number 2441375)

Directors:

Gerald Carey
David Emanuel Merton Mond

Registered Office:

George House
48 George Street
Manchester
M1 4HF

10 December 2005

To the holders of Existing Ordinary Shares

Dear Shareholder,

Acquisition of ClearDebt Limited
Placing of 60,350,000 new Ordinary Shares at 2p per share
Issue of Carrwood Warrants
Admission of the Enlarged Share Capital to trading on AIM
Notice of Extraordinary General Meeting
Change of name to ClearDebt Group plc

1. Introduction

The Company has today announced that it has agreed subject, *inter alia*, to Existing Shareholder approval, to acquire the entire issued share capital of ClearDebt for a consideration of £3 million to be satisfied by the issue of 150,000,000 new Ordinary Shares at a price of 2p per new Ordinary Share and 15,000,000 Carrwood Warrants to the Vendors, and the assumption of the Sound Financial Loan. The Company intends to, and has agreed that, on Admission it will satisfy the Sound Financial Loan by the issue to Sound Financial of 29,837,228 new Ordinary Shares and 2,983,722 Carrwood Warrants.

The Company also proposes to raise £1,207,000 by means of a placing of 60,350,000 new Ordinary Shares at 2p per share. These funds will be used to finance the development of ClearDebt and provide additional working capital for the Enlarged Group.

In addition, for each 10 Placing Shares subscribed for under the Placing, one Carrwood Warrant will be issued to the subscribers thereof. The Carrwood Warrants will not be traded on AIM or any other market. Further details in respect of the Carrwood Warrants are set out in paragraph 9.11 of Part VII of this document.

By reason of the size of ClearDebt in relation to Carrwood, the Acquisition is classified as a reverse takeover under the AIM Rules and therefore requires the approval of Existing Shareholders in general meeting. To complete the Acquisition and implement the Placing it will also be necessary to give the Directors the required powers and authorities to allot the New Ordinary Shares. In view of the significance of the Acquisition, the Directors also propose to change the name of the Company to ClearDebt Group plc.

The Proposals are conditional, *inter alia*, on the approval of Existing Shareholders.

The purpose of this document is to give you details of the Proposals and to ask you to vote in favour of the Resolutions to be proposed at the Extraordinary General Meeting, notice of which is set out at the end of this document.

2. Reasons for the Acquisition

Since the Company disposed of the trade, assets and liabilities of its wholesale and retail distribution activities on 29 December 2003, the Board has continued to assess opportunities to acquire suitable companies. The Board has sought good quality businesses, the acquisition of which, or investment in which, the Board anticipated would create value for shareholders. The Board believes that the proposed acquisition of ClearDebt meets these criteria.

3. Information on ClearDebt

(a) Introduction

ClearDebt was founded on 18 June 2004 by David Mond, a senior partner of Hodgsons, a Manchester-based firm of chartered accountants and insolvency practitioners. ClearDebt advises consumers who are finding it difficult to pay their debts as they fall due. The principal solution offered is the IVA.

ClearDebt was incorporated in June 2004 and commenced trading in April 2005.

(b) Products and Services

Consumers with debt problems have various options available to them including an IVA, a consolidation loan, the use of a debt management company or bankruptcy. An IVA is often the preferred solution for those individuals who are able to use it as it allows the individual to continue with their day to day lives with less restrictions than would be enforced in bankruptcy.

IVAs were introduced by the Government as part of the Insolvency Act 1986 to assist debtors by offering an alternative to bankruptcy. Creditors generally benefit from a higher return than if the debtor filed for bankruptcy. An IVA is a legally-binding agreement between a debtor and its unsecured creditors which provides for payment by the debtor of a fixed monthly amount for a period of time, commonly five years, to a trust account supervised by an insolvency practitioner.

In setting up the agreement, the insolvency practitioner calculates what the debtor can afford to pay and agrees this with the debtor. A meeting is then convened with creditors to vote on the proposal at which 75 per cent. of creditors voting must approve the arrangement. If passed, the arrangement binds all other creditors. For the period of the IVA the insolvency practitioner is responsible for supervising the arrangement to ensure that payments are made by the debtor and for distributing the amounts due to creditors. Insolvency practitioners charge a nominee's fee for securing an agreement and an annual supervisor's fee for supervising payments during the life of the IVA. Both the nominee's fee and the supervisor's fee are paid for ultimately by the creditors and are deducted from the monthly payments received from the debtor.

Among the advantages of an IVA are that:

- it allows a debtor to avoid bankruptcy which can prevent a debtor from running a business or opening a bank account;
- it is interest-free as all debts are frozen and no further interest or charges accrue when the IVA is agreed. Any debt remaining at the end of the IVA period is written off. This contrasts with the position under debt management or debt consolidation arrangements where interest often continues to accrue during the period of the arrangement;
- as the debtor is seen to be making an effort to pay off their debts, creditors will often look upon debtors with IVAs more favourably in the future when considering further credit arrangements; and
- the creditor generally benefits from a higher return than if the debtor filed for bankruptcy.

ClearDebt's IVA process has been based on "lean manufacturing" principles which are implemented to minimise wasted time and maximise throughput. These principles are incorporated in the "debt analyser" bespoke software and operating system which has been developed by ClearDebt. In the first stage of the process, debtors complete a short questionnaire which provides basic information and which generates a report indicating a range of possible debt solutions. Where an IVA might be appropriate, the debtor then completes a more detailed second-stage questionnaire which generates a personalised report.

ClearDebt's IVA process is internet-based and allows the debtor to populate the secure database with their own relevant information. The system allows the same process to deal with debtors who either have or who do not have assets such as property, vehicles, savings and endowments, and those who are either in full-time employment or self employed.

From this database the relationship administrator is able to produce automatically generated documentation for the entire IVA process including information packs, letters and statutory forms which include the debtor's personal information.

This allows costs to be kept low. The ClearDebt business model also requires a smaller number of staff who are relationship administrators. They recommend an appropriate debt solution to a debtor. Elsewhere in the industry many staff are focused on telesales, a function ClearDebt does not require. ClearDebt's "debt analyser" software has been designed to be easily scaleable to enable large numbers of IVAs to be handled by the minimum number of staff.

Clients benefit from the allocation of an individual relationship administrator who deals with their case from beginning to end. This provides consistent, knowledgeable and dedicated contact and streamlines delivery.

Where an IVA is not appropriate, ClearDebt will advise the debtor on alternative solutions such as debt management, debt consolidation or bankruptcy. A concise but informative report is sent to all clients where an IVA appears not to be appropriate giving details of where additional help may be sought. This involves minimal cost as the bespoke system design allows such reports to be generated and populated with specific information with little or no administrative input. ClearDebt aims to respond positively to all its users to encourage them to return if their situation changes or to recommend the service to others.

ClearDebt receives two types of fee in relation to IVAs, both of which are paid for by the creditors and are deducted from the monthly payments received from the debtor. A nominee's fee is charged for setting up the arrangement, followed by an annual supervisor's fee. ClearDebt's fees are substantially lower than those of most of its publicly traded competitors.

Different levels of fees are also applied with a reduced rate available to debtors owing less than £15,000. It is anticipated by the Board that these debtors will initially represent a small percentage of clients but it means that the benefits of an IVA are open to more individuals who might otherwise be prevented from entering into an IVA by higher fees, which reduce the dividend below a level acceptable to creditors.

The Board believes that ClearDebt's business process and relatively low fees will allow ClearDebt to operate in a sector of the marketplace where most competitors do not actively seek business (that is debts under £10,000).

ClearDebt's low fee structure allows it to pass on a higher proportion of debtor payments to creditors. The Directors and the Proposed Directors believe that this will encourage creditors to favour IVAs put forward to them by ClearDebt.

ClearDebt currently employs six operational staff and has two insolvency practitioners on its board. The Board believes that the experience of using a lean business process and an internet platform indicates that this number of staff can handle more than 70 cases per month.

(c) **Advertising and Marketing**

ClearDebt's marketing strategy concentrates on a low-cost model involving internet prospect acquisition techniques to attract the customers that its systems are designed to handle. These techniques including keyword-based search engine advertising, search engine optimisation and relationship marketing (through the development of tools that encourage site re-visits and techniques like email marketing) which are designed to minimise the cost per acquisition and which will be closely managed to ensure they remain efficient and low cost.

ClearDebt plans to complement this by, and is implementing, the use of more traditional media channels to increase brand awareness and to widen the pool from which cases can be sought. The Board expects this to assist with the formation of referral relationships with financial institutions to provide a further method of acquiring cases.

It is the Board's view that marketing activity undertaken by its competitors, future changes in the nature of IVAs and government plans to increase take up of the procedure, will help to grow the market for IVAs. ClearDebt's marketing communication is being developed as a result of both competitor analysis and consumer qualitative research. The Board believes that the service, the level of assistance provided to debtors and a strong brand will increase ClearDebt's market share.

(d) **Markets and Competition**

(i) Level of consumer debt

Private individuals in the UK owed more than £1,100 billion in August 2005 and unsecured lending to individuals amounted to £190.5 billion. Over the year to August 2005, total debt had risen by 10.5 per cent. The previous year had seen the largest single year increase in personal debt since the Bank of England was founded in 1694.

Total credit card debt in August 2005 was £56.2 billion. The British Bankers Association said that, in July 2005 76 per cent. of credit card balances were bearing interest. Currently, a quarter of families have at least one credit card where the outstanding balance is not cleared each month; these families owe an average of nearly £2,500 each (14 per cent. higher than in the same period in 2004).

(ii) Evidence of repayment difficulties

The Citizens' Advice Bureau ("CAB") has seen a 75 per cent. increase in the number of people seeking help for debt problems over the past seven years. The CAB dealt with 1.1 million debt issues in the last year for which records are available (2003/4) and nearly 707,000 of these related to consumer debt.

The Consumer Credit Counselling Service saw call levels grow by 30 per cent. in 2004 and is predicting a 50 per cent. rise in 2005. In the first half of 2005 County Court Judgments against personal debtors rose by 15 per cent. to more than 290,000 people.

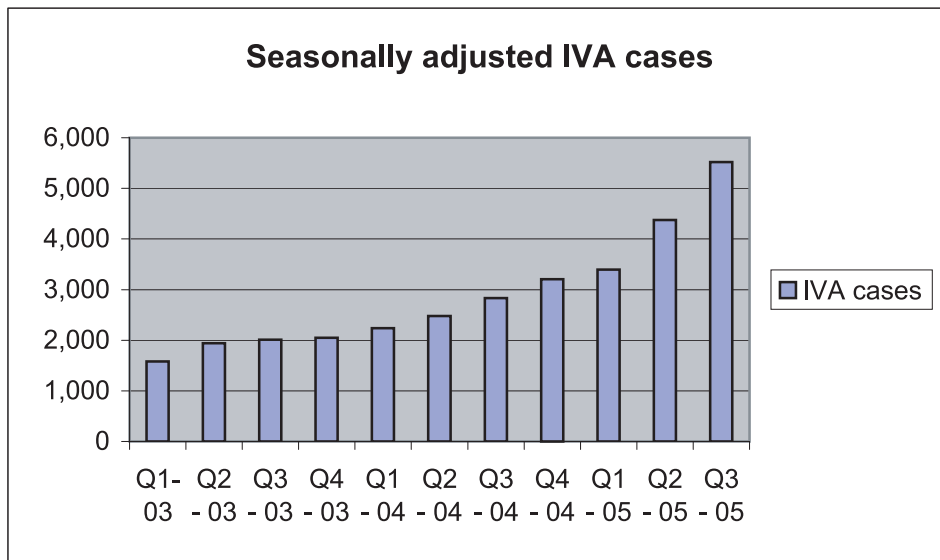

The growth of household debt continues to outstrip that of earnings. Debt is now just under 150 per cent. of annual income. UK banks are increasing their provisions for bad debt; these have approximately tripled between the second quarter of 1999 and the same period in 2005. The proportion of debtors considering their debt to either be a heavy burden or "somewhat of a problem" has increased from around 30 per cent. to around 40 per cent. between 2003 and 2004.

Mortgage arrears increased for the first time in 6 years in the second half of 2004 and have since increased further by a small amount. Mortgage repossession actions rose by over 52 per cent. year on year in the second quarter of 2005.

(iii) Number of personal insolvencies

The Department of Trade and Industry states that research attributes increases in personal insolvency to economic factors, particularly availability and levels of credit, although asset/debt ratio, interest rates and employment levels are all factors.

The IVA is an increasingly popular solution for consumer debt problems. The latest available statistics, for the third quarter of 2005, show an increase of 26.1 per cent. in the number of IVAs compared with the previous quarter and an increase of 95.0 per cent. on the corresponding quarter of the previous year. These statistics suggest a market of around 20,000 IVAs in England and Wales in 2005. The number of IVAs is growing approximately three times as quickly as bankruptcies.

(Source - Government News Network, 4 November 2005).

(iv) Competition

Only licensed insolvency practitioners are permitted to act as nominees or supervisors of IVAs. The Government has expressed an intention to implement new IVA procedures which will simplify the process. The Board believes that this will require ClearDebt's competitors to introduce fee structures closer to its present model. The Government has also indicated that it will not allow people other than licensed insolvency practitioners to be nominees or supervisors of IVAs.

The supply of insolvency practitioners is limited, representing a barrier to entry for debt consolidation and debt management firms who cannot offer an IVA service without an insolvency practitioner. Practitioners are beginning to focus on the increasing levels of consumer debt and the rising acceptance among debtors and creditors of an IVA as an appropriate solution. A number of large groups have emerged who are successfully using television advertising and telesales as a primary method of acquiring their cases. The Board believes that ClearDebt's low fee structure will challenge the charges these firms can make and the methods they use to acquire their work.

(e) **Financial Information**

The table below summarises the audited trading results of ClearDebt for the period ended 30 June 2005 and the unaudited management figures for the four months ended 31 October 2005. The audited information for the period ended 30 June 2005 has been extracted from the Accountants' Report set out in Part V of this document and should be read in conjunction with the full text of the Accountants' Report.

	Period ended 30 June 2005 (audited) £	4 months ended 31 October 2005 (unaudited) £
Turnover	8,630	39,232
Gross loss	(6,960)	(50,122)
Loss on ordinary activities before taxation	(12,997)	(83,765)

ClearDebt's accounting policies define gross loss as turnover, less direct payroll costs and direct advertising and marketing costs associated with the collection and processing of IVA cases. Presently all of ClearDebt's payroll costs are direct in nature and the Board believes that the present level of staffing is sufficient to process a significantly higher level of caseload than that experienced in the first four months of the current year.

ClearDebt also operates a conservative revenue recognition policy and only recognises turnover on the approval of the IVA by creditors.

Since ClearDebt began trading, only one out of 38 cases in which a creditors meeting has been booked has not completed.

The Enlarged Group

Following implementation of the Proposals, the Board's objective will be to develop ClearDebt's existing business and take advantage of its position in the growing market for IVAs. The Directors and the Proposed Directors believe that the prospects for the Enlarged Group are encouraging.

6. Directors, Proposed Directors and senior management

The Directors of the Company comprise Gerald Carey and David Mond. It is proposed that, on Admission, David Shalom will join the Board as non-executive Finance Director and Andrew Smith will join as Marketing Director. Brief summaries of the biographies of the Directors and Proposed Directors are set out below.

Directors

Gerald Carey (aged 62)

Gerald Carey is a former regional director of Barclays Bank plc and is a non-executive Chairman of six other companies. He is a Fellow of the Chartered Institute of Bankers and is an Approved Person within the Financial Services Authority.

David Mond (aged 60)

David qualified as a chartered accountant in 1971. Since that time he has been in public practice as a chartered accountant specialising in insolvency and turnaround situations. He is senior partner of Hodgsons Chartered Accountants. For 10 years David served on the Council of the Association of Business Recovery Professionals (formerly SPI), retiring in April 2003. He has been a director of Carrwood since 1989 and recently was involved in the administration of the FADS household décor business and its acquisition by Strategic Retail Plc which consequently listed on AIM in December 2003. He has recently been appointed a director of another AIM listed company, MKM Group plc. David is a licensed insolvency practitioner.

Proposed Directors

David Shalom (aged 38)

David qualified with Deloitte & Touche's audit division in 1991 and subsequently spent four years in their corporate recovery division. In 1995, David joined Coral Products plc, a fully listed company, and was appointed finance director in 1997, aged 30. In 2002, he became finance director of a private textile importer before leaving in 2004 to take up a role as a consultant in a specialist financial consulting practice involved in corporate finance and the provision of part-time directorships to the small and medium-sized enterprise market. In addition to his non-executive role at ClearDebt, he is part-time finance director of Worthington Group plc and finance director of a private equity backed daycare hospital which is being built in Manchester.

Andrew Smith (aged 49)

Andrew is a member of the Chartered Institute of Public Relations and also has diplomas from the Chartered Institute of Marketing and the Communications, Advertising and Marketing Foundation. He has worked in marketing communications for 28 years including experience in the consumer finance and professional services sectors. Between 1987 and 1989 he was marketing communications manager for chartered accountants, BDO Binder Hamlyn, managing a large department with significant national and local budgets. Between 1992 and 2004 Andrew was a director of specialist insolvency communications firm, Smith Grundon & Partners Limited. He joined ClearDebt in August 2004.

Further details of the Directors' and Proposed Directors' directorships are set out in paragraph 7.1 of Part VII of this document.

Senior Management

Lawrence Freedman (aged 60)

Lawrence qualified as a chartered accountant in 1973 with G Moffatt and Co. Since 1986 he has been in public practice as a chartered accountant specialising in all types of insolvency procedures. He became a partner of Hodgsons, Chartered Accountants in 1988. He is a licenced insolvency practitioner and, together with David Mond, takes formal insolvency appointments within his role at ClearDebt.

Vicky Fletcher (aged 27)

Vicky is the operations manager of ClearDebt, overseeing a team of five employees, and is responsible for all back office activities, including contact with debtors and creditors. She joined ClearDebt in August 2004 after working for a London firm of insolvency practitioners and has experience in personal and corporate insolvency.

Advisory Board

ClearDebt has also established an advisory board which will meet three times a year to discuss personal debt issues with the Board. The advisory board will include Professor David Milman, professor of corporate and insolvency law at Lancaster University, Dr. Keith Pond, senior lecturer in banking and economics at Loughborough University, and Michael Green, research fellow at the University of Wales (Bangor).

7. Details of the Placing

The Company is proposing to raise £1,207,000 (before expenses) by the issue of 60,350,000 Placing Shares pursuant to the Placing at the Placing Price. The Placing Shares will represent 23.88 per cent. of the Enlarged Share Capital.

The Placing Shares will be issued fully paid and will, on issue, rank *pari passu* with the Existing Ordinary Shares, including the right to receive, in full, all dividends and other distributions thereafter declared, made or paid.

In addition, for each 10 Placing Shares subscribed for under the Placing, one Carrwood Warrant will be issued to the subscribers thereof. The Carrwood Warrants will not be traded on AIM or any other market. Further details in respect of the Carrwood Warrants are set out in paragraph 9.11 of Part VII of this document.

The Placing is subject, *inter alia*, to the satisfaction of the following conditions on or before 8.00 a.m. on 4 January 2006 or such later time and date (being not later than 5.00 p.m. on 30 January 2006) as WH Ireland and the Company may agree:

- (a) the passing of the Resolutions at the EGM;
- (b) the completion of the Acquisition;
- (c) Admission having occurred; and
- (d) WH Ireland not having exercised its rights in certain circumstances to terminate the Placing Agreement prior to Admission.

Further details of the Placing Agreement are set out in paragraph 16 of Part VII of this document.

8. Details of the Acquisition

By an agreement dated 10 December 2005, Carrwood has conditionally agreed to acquire the entire issued share capital of ClearDebt from the Vendors subject, *inter alia*, to Existing Shareholder approval. The consideration for the Acquisition is £3 million which is to be satisfied by the issue of 150,000,000 new Ordinary Shares and 15,000,000 Carrwood Warrants to the Vendors, and the assumption of the Sound Financial Loan. The Company intends to, and has agreed that, on Admission, it will satisfy the Sound Financial Loan by the issue to Sound Financial of 29,837,228 new Ordinary Shares and 2,983,722 Carrwood Warrants. Pursuant to the Acquisition Agreement, David Mond has given certain warranties and indemnities in relation to ClearDebt and its tax position. If the conditions contained in the Acquisition Agreement are not satisfied by 30 January 2006 (or such later date as Carrwood and WH Ireland agree) the Acquisition Agreement will terminate.

9. Related party transaction

As David Mond, the principal shareholder of ClearDebt, is a Director, the Acquisition is classified as a related party transaction under section 320 of the Act and the AIM Rules. For the purposes of section 320 of the Act, the transaction is required to be approved by the Existing Shareholders. The opinion of the Independent Director on the terms of the Acquisition is set out in paragraph 20 of this Part I.

10. Lock-in arrangements

The Directors and certain of the Shareholders following Admission who will together hold 59.79 per cent. of the Enlarged Share Capital have agreed that they will not (save in certain specific circumstances) dispose of any Ordinary Shares for a period of 12 months following Admission and only dispose of Ordinary Shares through WH Ireland for a period of 12 months thereafter. In addition, Sound Financial has agreed lock-in arrangements in the same terms for 12 months following Admission. The Placing Shares, other than in respect of those subscribed for by Gerald Carey, are not subject to any lock-in agreement.

Details of the lock-in agreements are set out in paragraph 9.7 of Part VII of this document.

11. Taxation

Information on taxation in the UK with regard to holdings of Ordinary Shares is set out in paragraph 11 of Part VII of this document. Shareholders who are in any doubt as to their tax position or who are subject to tax in any other jurisdiction should consult an appropriate independent professional adviser immediately.

12. Corporate Governance

The Directors and Proposed Directors acknowledge the importance of the Combined Code and the Company intends, following Admission, to comply with the Combined Code insofar as practicable for a public company of its size. The Board has established audit and remuneration committees with formally delegated duties and responsibilities.

The audit committee, which will meet at least twice a year, will consist of Gerald Carey, as Chairman, and David Shalom. The audit committee will determine the terms of engagement of the Company's auditors, determine in consultation with the Company's auditors the scope of the audit and receive and review reports from management and the Company's auditors relating to the annual and interim accounts and the accounting and internal control systems of the Company. The audit committee will have unrestricted access to the Company's auditors.

The remuneration committee which will meet at least once a year, will consist of David Mond, as Chairman, and Gerald Carey. The remuneration committee will determine the terms and conditions of service including the remuneration and grant of options under any share scheme of the Company to the directors of the Company and directors of other companies in the Enlarged Group.

The Directors and Proposed Directors recognise that a system of internal controls and reporting procedures is vital for the Enlarged Group and will therefore maintain such systems as are required to control revenues, costs and quality thresholds at each of the Enlarged Group's locations.

The Company will ensure, in accordance with Rule 21 of the AIM Rules, that its directors and applicable employees do not deal in any of the Ordinary Shares during a close period (as defined in the AIM Rules) and will take all reasonable steps to ensure compliance by its directors and applicable employees.

13. Share Option Schemes

The Directors intend to establish share option schemes shortly after Admission in order to incentivise directors and key members of staff.

14. Dividend Policy

To date the Company has not paid a dividend. It is expected that any cash generated by the Enlarged Group's operations in the short to medium term will be devoted to funding the Enlarged Group's planned development. The Board will continue to review the appropriateness of its dividend policy as the Enlarged Group develops, subject to the availability of the Company's distributable reserves.

15. The City Code

The City Code applies to all takeover and merger transactions, however effected, where the offeree company is, *inter alia*, a listed or unlisted public company resident in the United Kingdom (and to certain categories of private limited companies). Carrwood is such a company and its shareholders are entitled to the protection afforded by the City Code.

As at the date of this document, trusts of which David Mond is a trustee own 83.9 per cent. of the issued share capital of the Company. Following implementation of the Proposals, the interest of David Mond and persons acting in concert with him which, for this purpose, includes Sound Financial will amount to 75.96 per cent. of the Enlarged Share Capital.

As implementation of the Proposals will not give rise to a change in the control of Carrwood, the Panel has confirmed that no obligation will arise under the City Code for a general offer to be made for the Company by David Mond and persons acting in concert with him.

16. Extraordinary General Meeting

The Acquisition is classed as a reverse takeover for the purpose of the AIM Rules and is therefore conditional upon the approval of the Existing Shareholders. An Extraordinary General Meeting has been convened for 11.00 a.m. on 3 January 2006 at George House, 48 George Street, Manchester M1 4HF, at which the Resolutions will be proposed for the purposes of approving the Proposals.

At this meeting, resolutions will be proposed to:

- approve the Acquisition for the purposes of the AIM Rules and for the purposes of section 320 of the Act;
- increase the Company's authorised share capital;
- authorise the issue of new Ordinary Shares pursuant to, *inter alia*, the Placing, the Acquisition and the issue of the Warrants; and
- change the Company's name to ClearDebt Group plc.

In addition, a special resolution will be proposed to disapply statutory pre-emption rights of Shareholders in accordance with section 95 of the Act in relation to the issue of the New Ordinary Shares in connection with the Placing, the Acquisition and the issue of the Warrants and also in relation to the issue of 25,000,000 Ordinary Shares.

Save for the issue of the New Ordinary Shares pursuant to the Placing and the Acquisition and the issue of the Warrants, the Directors have no present intention of exercising the authority to allot any unissued share capital of the Company.

17. Action to be taken

A Form of Proxy is enclosed for use at the EGM. Whether or not you intend to be present at the meeting you are requested to complete, sign and return the Form of Proxy to the Company's Registrars, Neville Registrars Limited, Neville House, 18 Laurel Lane, Halesowen, West Midlands B63 3DA as soon as possible but, in any event, so as to arrive not later than 11.00 a.m. on 1 January 2006. The completion and return of a Form of Proxy will not preclude you from attending the meeting and voting in person should you subsequently wish to do so.

Shareholders who are CREST members should refer to their CREST sponsors regarding the action to be taken in connection with this document.

18. Further Information

Your attention is drawn to the further information set out in Parts II to VII of this document and in particular to the Risk Factors relating to the Enlarged Group set out in Part II.

19. Dealing arrangements

Application will be made to the London Stock Exchange for the Existing Ordinary Shares and the New Ordinary Shares to be re-admitted and admitted, respectively, to trading on AIM. It is expected that Admission will become effective and dealings, for normal settlement, will commence on 4 January 2006. If the Resolutions are not passed or the Acquisition is not completed, the Existing Ordinary Shares will continue to be traded on AIM.

The Ordinary Shares are eligible for settlement through CREST. Accordingly, settlement of transactions in the Ordinary Shares following Admission may take place within CREST if the relevant shareholder so wishes. Settlement of transactions in the Ordinary Shares through CREST is voluntary and Shareholders who wish to receive and retain share certificates will be able to do so.

20. Recommendations and opinions

The Independent Director, who has been so advised by Zeus Capital, believes that the terms of the Acquisition are fair and reasonable in so far as the Shareholders are concerned. In providing advice to the Independent Director, Zeus Capital has relied upon information supplied by, and the commercial assessment of, the Independent Director.

The Directors and the Proposed Directors, who have been advised by WH Ireland, believe that the Proposals are fair and reasonable and in the best interests of the Company and its Shareholders as a whole. In providing advice to the Directors and the Proposed Directors, WH Ireland has relied upon the information supplied by the Directors and Proposed Directors and their commercial assessments.

Accordingly:

- (i) the Independent Director recommends Shareholders to vote in favour of the resolution numbered 1 to be proposed at the Extraordinary General Meeting. David Mond will not vote on the resolution numbered 1 in respect of the Ordinary Shares in which he is interested. The Independent Director does intend to vote on the resolution numbered 1 in respect of his own beneficial holding of 20,000 Ordinary Shares representing approximately 0.2 per cent. of the Existing Share Capital; and
- (ii) the Directors recommend Shareholders to vote in favour of the resolutions numbered 2 and 3. The Directors intend to vote in favour of the resolutions numbered 2 and 3 in respect of their own beneficial holdings of, in aggregate, 10,500,000 Ordinary Shares, representing approximately 84.1 per cent. of the Existing Share Capital.

Yours faithfully,

Gerald Carey

PART II

RISK FACTORS

Potential investors should carefully consider the risks described below before making a decision to invest in the Company. If any of the following risks actually occur, the Enlarged Group's business, financial condition, results or future operations could be materially affected. In such circumstances, the price of the Company's shares could decline and investors could lose all or part of their investment. This document contains forward-looking statements that involve risks and uncertainties. The Enlarged Group's results could differ materially from those anticipated in the forward-looking statements as a result of many factors, including the risks faced by the Enlarged Group, which are described below and elsewhere in the document. Additional risks and uncertainties not currently known to the Board may also have an adverse effect on the Enlarged Group's business. The information set out below does not constitute an exhaustive summary of the risks affecting the Enlarged Group and is not set out in any order of priority.

1. Risks relating to the Enlarged Group

Limited trading history

ClearDebt has only a limited operating history and it is therefore difficult to evaluate the Enlarged Group's business and future prospects. The future success of the Enlarged Group will depend on the Directors' and Proposed Directors' ability to implement its strategy. Whilst the Directors and the Proposed Directors are optimistic about the Enlarged Group's prospects, there is no certainty that anticipated revenues or growth will be achieved.

Operating results are volatile and difficult to predict

Operating results may fluctuate significantly in the future due to a variety of factors, many of which are outside the Enlarged Group's control. These factors include seasonal and economic patterns and trends which may affect the markets for the products and services the Enlarged Group offers.

Brand recognition

Establishing, enhancing and maintaining the ClearDebt brand is fundamental to the Enlarged Group's efforts to attract and expand its customer base. Promotion of the ClearDebt brand will depend largely on marketing and advertising which may not be effective to promote the brand. Even if recognition of the brand increases, it may not lead to an increase in the number of customers.

EIS and VCT relief

Provisional clearance has been obtained from the Inland Revenue that the Enlarged Group's business qualifies for EIS relief under EIS and as a qualifying business for VCT relief. Although qualifying investors should obtain tax relief on their investments under EIS relief or VCT relief neither the Enlarged Group, the Directors nor the Proposed Directors can provide any warranty or guarantee in this regard. Investors must take their own advice and rely on it.

Neither the Enlarged Group, the Directors nor the Proposed Directors give any warranties or undertakings that EIS relief or VCT relief if granted will not be withdrawn. Investors must take their own advice and rely on it. If the Enlarged Group carries on activities beyond those disclosed to the Inland Revenue then shareholders may cease to qualify for the tax benefits outlined in this document.

Requirements for further funds

There may be a requirement for the Enlarged Group to raise further funds in the future in order to fully exploit opportunities available and to fund further expansion. Such a funding requirement may be by way of the issue of further Ordinary Shares on a non pre-emptive basis. There is no commitment in place guaranteeing that any funds required in the future will be available and, if further equity finance is raised, the interests of existing shareholders may be diluted.

Management of growth

The ability of the Enlarged Group to implement its strategy in a rapidly evolving market requires effective planning and management control systems. The Board anticipates that further expansion will be required to respond to market opportunities and the potential growth in its client base. The Enlarged Group's growth plans may place a significant strain on the Enlarged Group's management, operational, financial and personnel resources.

Therefore, the Enlarged Group's further growth and prospects will depend on its ability to manage this growth and to continue to expand and improve operational, financial and management information and quality control systems on a timely basis, whilst at the same time maintaining effective cost controls. Any failure to expand and improve operational, financial and management information and quality control systems in line with the Enlarged Group's growth could have material adverse effect on the Enlarged Group's business, financial condition and results of operations.

Dependence on senior management and employees

As with any company, the Enlarged Group's results are dependent upon the performance and continued services of the Enlarged Group's senior management and other key personnel, in particular licensed insolvency practitioners. The loss of the services of its senior management or key employees, in particular a licensed insolvency practitioner, could have a detrimental effect on the Enlarged Group.

Other directorships and interests

Investors should note that none of the non-executive Directors or the non-executive Proposed Directors are or will be in any way limited (other than by their normal duties as company directors) by way of their involvement with the Enlarged Group, from acting in the management or conduct of the affairs of any other company. Should any conflicts of interest be identified they will be declared and dealt with appropriately by the Directors and/or the Proposed Directors.

2. Risks associated with the personal insolvency industry

The Market

The market in which ClearDebt operates has relatively low barriers to entry and there can be no guarantee that the Enlarged Group will be able to respond to competitive challenges effectively, particularly if an organisation with substantial financial resources decides to enter the market.

In addition, public perception of debt management companies may alter which could have adverse effects on the Enlarged Group.

Regulation

ClearDebt operates in a highly regulated environment and changes to legislation which governs ClearDebt's business may adversely impact on the prospects of the Enlarged Group.

Legislation and compliance

ClearDebt's business is founded upon the insolvency processes existing under current insolvency legislation. Any change in insolvency legislation (and, in particular, any change which results in the IVA process either being unavailable or less attractive to individuals with debt problems) or the introduction of additional stringent compliance regulations could significantly affect the ability of the Enlarged Group to operate in its current form.

This document has been prepared on the basis of current legislation, rules and practice and the Directors' interpretation thereof. Such interpretation may not be correct and it is always possible that legislation, rules and practice may change. Any changes in legislation, and in particular any changes to bases of taxation, tax relief and rates of tax, may affect the availability of reliefs.

3. General risks

Trading market for the Ordinary Shares

The market price of the Ordinary Shares may be subject to fluctuations in response to many factors, including variations in the operating results of the Enlarged Group, divergence in financial results from analysts' expectations, changes in earnings estimates by stock market analysts, general economic conditions, legislative changes in the Enlarged Group's sector and other events and factors outside the Enlarged Group's control.

In addition, stock markets have from time to time experienced extreme price and volume fluctuations, which, as well as general economic and political conditions, could adversely affect the market price for the Ordinary Shares.

Investment risk and AIM

The Existing Ordinary Shares and the New Ordinary Shares will be quoted on AIM rather than the Official List. The rules of AIM are less demanding than those of the Official List and an investment in shares quoted on AIM may carry a higher risk than an investment in shares quoted on the Official List. AIM has been in existence since June 1995 but its future success and liquidity in the market for the Company's securities cannot be guaranteed. Investors should be aware that the value of the Existing Ordinary Shares and the New Ordinary Shares may be volatile and may go down as well as up and investors may therefore not recover their original investment.

The market price of the Ordinary Shares may not reflect the underlying value of the Enlarged Group's net assets. The price at which investors may dispose of their shares in the Enlarged Group may be influenced by a number of factors, some of which may pertain to the Enlarged Group, and others of which are extraneous. On any disposal investors may realise less than the original amount invested.

Admission to AIM should not be taken as implying that there will be a liquid market for the Ordinary Shares. It may be more difficult for an investor to realise their investment in the Company than in a company whose shares are quoted on the Official List.

Market Perception

Market perception of the Enlarged Group may change for a number of reasons, potentially affecting the value of investors' holdings and the ability of the Enlarged Group to raise further funds by the issue of further Ordinary Shares or otherwise. Some of the reasons affecting the market perception of the Enlarged Group may be outside the control of the Enlarged Group.

The risks listed above do not necessarily comprise all those faced by the Enlarged Group.

CARRWOOD PLC

NOTES TO THE FINANCIAL INFORMATION

1. Basis of accounting

The financial statements have been prepared in accordance with applicable Accounting Standards and under the historical cost accounting rules.

(a) Turnover

Turnover represents the invoiced value of goods despatched to customers during the period, net of returns and trade discounts and excluding value added tax.

(b) Goodwill

Positive purchased goodwill arising on acquisitions is capitalised, classified as an asset on the Balance Sheet and amortised over its estimated useful life up to a maximum of 20 years. This length of time is presumed to be the maximum useful life of purchased goodwill because it is difficult to make projections beyond this period. Goodwill is reviewed for impairment at the end of the first full financial year following each acquisition and subsequently as and when necessary if circumstances emerge that indicate that the carrying value may not be recoverable.

(c) Amortisation

Amortisation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Goodwill	–	20 years
Trademarks	–	5 years

(d) Fixed assets

The cost of tangible fixed assets is their purchase cost, together with any incidental expenses of acquisition. Interest costs of financing additions are not capitalised.

Under the transitional arrangements of FRS15, Tangible Fixed Assets, the valuation undertaken in 1998 of certain land and buildings was adopted as cost. This valuation has not been updated and it is not the company's policy to revalue land and buildings.

(e) Depreciation

Depreciation of fixed assets other than freehold land is calculated to write off their cost or valuation less any residual value over their estimated useful lives as follows:

Land and buildings	–	50 years
Plant and machinery	–	4 – 7 years
Motor vehicles	–	4 – 7 years

An amount equal to the excess of the annual depreciation charge on revalued assets over the notional historical cost depreciation charge on those assets is transferred annually from the revaluation reserve to the profit and loss reserve.

The carrying values of tangible fixed assets are reviewed for impairment in periods if events or changes in circumstances indicate the carrying value may not be recoverable.

(f) Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

NOTES TO THE FINANCIAL INFORMATION (continued)

(g) Operating leases and hire purchase contracts

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

(h) Pension costs

The Company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the Company. The annual contributions payable are charged to the profit and loss account.

(i) Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. Timing differences are differences between taxable profits and the results as stated in the financial statements which arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised only when it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of underlying timing differences can be deducted.

Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued asset and the resulting gain or loss has been recognised in the financial statements. Neither is deferred tax recognised when fixed assets are sold and it is more likely than not that the taxable gain will be rolled over, being charged to tax only if and when the replacement assets are sold.

Deferred tax is measured at the average tax rates which are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws which have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

(j) Foreign currencies

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated at the rates of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.

Any other extraordinary general meeting shall be called by at least 14 clear days' notice by the Company. Notice shall be given to all members and the directors and the auditors.

Every notice calling a general meeting shall specify the place, day and hour of the meeting. Every notice must include a reasonably prominent statement that a member entitled to attend and vote is entitled to appoint a proxy or proxies to attend and, on a poll, vote instead of him and that a proxy need not be a member of the Company.

A general meeting may be called by shorter notice if it is agreed: (i) in the case of an annual general meeting, by all the members entitled to attend and vote; and (ii) in the case of an extraordinary general meeting, by a majority in the number of the members having a right to attend and vote, being a majority together holding at least 95 per cent. in nominal value of the shares giving that right.

4.2.4 *Changes in capital*

The Company may by ordinary resolution cancel any shares which have not been taken (or are subject to agreement to take) and diminish the amount of its share capital by the nominal amount of the shares so cancelled.

The Company may, subject to the provisions of the Act, by special resolution reduce its share capital, any capital redemption reserve and any share premium account. Subject to and in accordance with the provisions of the Act, the Company may purchase its own shares (including redeemable shares).

4.2.5 *Variation of Rights*

Subject to the Act and every other statute for the time being in force concerning companies and affecting the Company (the "Statutes"), if at any time the capital of the Company is divided into different classes of shares, all or any of the rights and privileges attached to any class of share may be varied or abrogated either (i) in such a manner (if any) as may be provided by the rights attaching to such class or (ii) in the absence of any such provision, with the consent in writing of the holders of at least 75 per cent. of the nominal amount of the issued shares of the relevant class or with the sanction of an extraordinary resolution passed at a separate meeting of the holders of the shares of the relevant class. At any such separate meeting the holders present in person or by proxy of one third of the issued shares of the class in question shall be a quorum. Unless otherwise provided by the rights attaching to any shares, these rights shall be deemed to be varied by the creation or issue of further shares ranking in any respect in priority thereto.

4.2.6 *Alteration of Capital*

The Company may from time to time by ordinary resolution increase its share capital, consolidate and divide all or any of its share capital into shares of a larger amount, sub-divide all or any of its shares into shares of a smaller amount and cancel any shares not taken or agreed to be taken by any person.

The Company may, subject to the Statutes, by special resolution reduce its share capital, any capital redemption reserve and any share premium account. Subject to and in accordance with the provisions of the Statutes, the Company may purchase its own shares (including redeemable shares).

4.2.7 *Redemption*

The Company may, by special resolution and subject to the Statutes, create shares which are liable to be redeemed. As at the date of this document, there are no shares in issue which are capable of being redeemed by the Company.

4.2.8 *Conversion*

The Company may, by ordinary resolution and subject to the Statutes, convert all or any of its fully-paid shares into stock of the same class and denomination and reconvert such stock into fully paid up shares of the same class and denomination.

4.2.9 *Distribution of assets on a winding up*

In the event of liquidation of the Company the holders of shares are entitled *pari passu* to any surplus dividends. A liquidator may, with the sanction of an extraordinary resolution, divide the assets among the members in specie.

4.2.10 *Transfer of Shares*

The Ordinary Shares are in registered form and may be in certificated or uncertificated form. Shares in uncertificated form may be transferred otherwise than by written instrument in accordance with the Statutes and relevant subordinate legislation. Transfers of shares in certificated form may be effected by instrument in writing in any usual or common form or in any other form acceptable to the directors. Any instrument of transfer shall be signed by or on behalf of the transferor and (except in the case of fully paid shares) by or on behalf of the transferee. The transferor shall be deemed to remain the holder of the shares until the name of the transferee is entered in the Company's register of members.

The directors may refuse to register the transfer of a share which is in respect of a share which is not fully paid, or which is in favour of more than four transferees or which is in respect of more than one class of shares or which has not been presented for registration duly stamped accompanied by the share certificates for the shares to which the transfer relates and such other evidence as the directors may reasonably require to show the right of the transferor to make the transfer.

Where in respect of any shares any registered holder or any other person appearing to be interested in such shares fails to comply with any notice given by the Company under section 212 of the Act, then the Company may prohibit transfers of such shares otherwise than following a sale shown to the satisfaction of the directors to be of the full legal and beneficial ownership of such shares at arm's length. The registration of transfers may be suspended by the Directors for any period not exceeding 30 days in a year.

4.2.11 *Dividends and other distributions*

Subject to the provisions of the Statutes, the Company may by ordinary resolution declare dividends in accordance with the respective rights of the members, but not exceeding the amount recommended by the directors. The directors may pay interim dividends if it appears to them that they are justified by the profits of the Company. Except as otherwise provided by the Articles or the rights attached to any shares issued by the Company, the holders of shares are entitled *pari passu* amongst themselves to share in the whole of the profits of the Company paid out as dividends and the whole of any surplus in the event of liquidation of the Company. A liquidator may, with the sanction of an extraordinary resolution, divide the assets among the members in specie. The directors may, with the sanction of an ordinary resolution, offer the shareholders or any class of them (other than those not entitled to the relevant dividend or dividends) the right to elect to receive Ordinary Shares, credited as fully paid, instead of cash in respect of the whole or part of any dividend or dividends which are the subject of the ordinary resolution.

Where, in respect of any shares, any registered holder or any other person appearing to be interested in shares of the Company fails to comply with any notice given by the Company under section 212 of the Act, then, provided that the shares concerned represent at least

0.25 per cent. in nominal amount of the issued shares of the relevant class, the Company may withhold dividends on such shares.

All unclaimed dividends may be invested or otherwise made use of by the directors for the benefit of the Company until claimed and the Company shall not be constituted a trustee in respect thereof. Any dividend which is unclaimed for a period of 12 years from the date on which the dividend became due for payment shall be forfeited and cease to remain owing by the Company.

4.2.12 *Borrowing Powers*

Subject to the provisions of the Act and as provided in the Articles, the directors may exercise all the powers of the Company to borrow money, to mortgage or charge its undertaking, property and assets (present and future) and uncalled capital, and to issue debentures and other securities, whether outright or as collateral security for any debt, liability or obligation of the Company or any third party. The directors shall restrict the borrowings of the Company and the borrowings of any other companies within the Group so as to secure that the aggregate amount for the time being outstanding (after adjustments provided for in the Articles) at any one time owing by the Group in respect of monies borrowed, determined in accordance with the Articles, shall not without the previous sanction of an ordinary resolution of the Company exceed an amount equal to the greater of £3 million or three times the aggregate of the nominal amount paid up on the Company's issued share capital and the total amount standing to the credit of the capital and revenue reserve of the Group as shown in the latest audited balance sheet of the Group but adjusted as may be necessary to take account of such deductions as are specified in the Articles.

4.2.13 *Constitution of board of directors*

The minimum number of directors shall not be less than two and unless and until otherwise determined by the Company in general meeting shall not be more than eight. No shareholder qualification is required of any director.

4.2.14 *Retirement of directors by rotation*

The Articles do not contain any provision to exclude the operations of section 293(2) of the Act and, accordingly, special notice will be required of any resolution appointing or approving the appointment of a director who has attained the age of 70.

At every annual general meeting of the Company one third of the directors or the number nearest to but not exceeding one third shall retire by rotation and be eligible for re-election. The directors to retire will be those who have been longest in office or, in the case of those who were appointed or re-appointed on the same day, will (unless they otherwise agree) be determined by lot.

4.2.15 *Remuneration of directors*

The fees to be paid to the directors shall be determined by the Remuneration Committee of the Company from time to time.

Each director may also be paid all travelling, hotel and other expenses properly incurred by him in connection with his attendance at meetings of the directors of the Company or otherwise in the discharge of his duties as a director. Any director who holds any executive office or who serves on any committee or who devotes special attention to the business of the Company or who otherwise performs services which, in the opinion of the directors, are outside the scope of the ordinary duties of a director, may be paid such extra remuneration by way of salary, lump sum, participation in profits or otherwise as the directors determine.

4.2.16 *Permitted interests of directors*

Subject to the provisions of the Statutes, a director is not disqualified by his office from contracting with the Company in any manner, nor is any contract in which he is interested liable to be avoided, and any director who is so interested is not liable to account to the Company for any profit realised by the contract, by reason of the director holding that office or of the fiduciary relationship thereby established.

A director may hold any other office or place of profit with the Company (except that of auditor) in conjunction with his office of director and may act in a professional capacity for the Company (other than as auditor) on such terms as to tenure of office, remuneration or otherwise as the directors may determine. A director may also hold office as a director or other officer or be otherwise interested in any other company of which the Company is a member or in which the Company is otherwise interested and shall not be liable to account to the Company for any remuneration or other benefits received by him from that company.

4.2.17 *Restrictions on voting by directors*

Save as provided below, a director shall not vote on or in respect of any contract or arrangement or any other proposal in which he has an interest which is to his knowledge a material interest otherwise than by virtue of his interest in shares or debentures or other securities of or otherwise in or through the Company. A director shall not be counted in the quorum at a meeting in relation to any resolution on which he is debarred from voting.

A director shall (in the absence of some other material interest than is indicated below) be entitled to vote and be counted in the quorum in respect of any resolution concerning any of the following matters:

- (a) the giving of any security, guarantee or indemnity in respect of money lent or obligations incurred by him at the request of or for the benefit of the Company or any of its subsidiary undertakings;
- (b) the giving of any security, guarantee or indemnity to a third party in respect of a debt or obligation of the Company or any of its subsidiary undertakings for which he has assumed responsibility in whole or in part under a guarantee or indemnity or by the giving of security;
- (c) any proposal concerning a placing of shares or debentures or other securities of or by the Company or any of its subsidiary undertakings for subscription or purchase in which placing he is or is to be interested as a holder of securities or as a participant in the undertaking or sub-underwriting thereof;
- (d) any proposal concerning any other company in which he does not to his knowledge hold directly or indirectly an interest in shares representing one per cent. or more of any class of the equity share capital or voting rights;
- (e) any arrangement for the benefit of employees of the Company and its subsidiary undertakings which does not award him any privilege or benefit not generally awarded to the employees to whom such arrangement relates; and
- (f) any contract for the purchase or maintenance of insurance against any liability of any directors.

4.3 *Mandatory bids, squeeze-out and sell-out rules relating to the Ordinary Shares*

4.3.1 *Mandatory bid*

The City Code applies to the Company. Under the City Code, if an acquisition of Ordinary Shares were to increase the aggregate holding of the acquiror and its concert parties to shares carrying 30 per cent. or more of the voting rights in the Company, the acquiror and, depending on the circumstances, its concert parties, would be required (except with the consent of the Panel on Takeovers and Mergers) to make a cash offer for the outstanding shares in the Company at a price not less than the highest price paid for the Ordinary Shares by the acquiror or its concert parties during the previous 12 months. This requirement would also be triggered by any acquisition of shares by a person holding (together with its concert parties) shares carrying between 30 and 50 per cent. of the voting rights in the Company if the effect of such acquisition were to increase that person's percentage of the voting rights.

4.3.2 *Squeeze-out*

Under the Act, if an offeror were to acquire 90 per cent. of the Ordinary Shares within four months of making its offer, it could then compulsorily acquire the remaining 10 per cent. It would do so by sending a notice to outstanding Shareholders telling them that it will

compulsorily acquire their shares and then, six weeks later, it would execute a transfer of the outstanding shares in its favour and pay the consideration to the Company, which would hold the consideration on trust for outstanding Shareholders. The consideration offered to the Shareholders whose shares are compulsorily acquired under the Act must, in general, be the same as the consideration that was available under the takeover offer.

4.3.3 *Sell-out*

The Act would also give minority Shareholders in the Company a right to be bought out in certain circumstances by an offeror who had made a takeover offer. If a takeover offer related to all the Ordinary Shares and at any time before the end of the period within which the offer could be accepted the offeror held or had agreed to acquire not less than 90 per cent. of the Ordinary Shares, any holder of shares to which the offer related who had not accepted the offer could by a written communication to the offeror require it to acquire those shares.

The offeror would be required to give any Shareholder notice of his right to be bought out within one month of that right arising. The offeror may impose a time limit on the rights of minority Shareholders to be bought out, but that period cannot end less than three months after the end of the acceptance period. If a Shareholder exercises his/her rights, the offeror is bound to acquire those shares on the terms of the offer or on such other terms as may be agreed.

Pursuant to this agreement the Buyers agreed to indemnify the Company against all liabilities it incurs as a result of its performance of the Downtex Hive-down Agreement including any claims arising out of the transfer of employees pursuant to that agreement. The Downtex Share Sale Agreement was approved by the Company in general meeting for the purposes of section 320 of the Act;

- 9.11 an instrument of the Company dated 10 December 2005 constituting the Carrwood Warrants pursuant to which the Company will, subject to Admission, grant warrants to subscribe for an aggregate of 24,018,722 Warrant Shares at 4p per Warrant Share between the first anniversary of Admission and the third anniversary of Admission. The Carrwood Warrants are only exercisable by the holders thereof once on each of the first, second and third anniversaries of Admission. The Carrwood Warrants are not transferable.

ClearDebt

The following contract, not being a contract entered into in the ordinary course of business, has been entered into by ClearDebt within the two years immediately preceding the date of this document and is, or may be, material or is, or may contain provisions under which ClearDebt has an obligation or entitlement which is material to the Enlarged Group:

- 9.12 a convertible loan note instrument dated 28 September 2005 (“the Sound Financial Loan Note”) pursuant to which Sound Financial advanced to ClearDebt by way of a loan the sum of £500,000 which carried interest at the rate of 6 per cent. per annum. This loan note instrument is convertible or redeemable at the option of Sound Financial on the implementation of the Proposals. On Admission, the Company intends to, and has agreed to, satisfy the Sound Financial Loan Note by the issue of new Ordinary Shares and Carrwood Warrants to Sound Financial. This will result in Sound Financial holding 29,837,228 Ordinary Shares and 2,983,722 Carrwood Warrants which will be issued pursuant to the terms of the Acquisition Agreement.

10 Corporate Governance

- 10.1 The Board fully supports the underlying principles of corporate governance contained in the Combined Code, notwithstanding that, as its securities are not listed on the Official List, it is not required to comply with such recommendations. It has sought to comply with the provisions of the Combined Code, insofar

as is practicable and appropriate for a public company of its size and nature, and recognises its overall responsibility for the Company's systems of internal control and for monitoring their effectiveness.

The main features of the Company's corporate governance procedures, which do not constitute full compliance with the Combined Code, are as follows:

- the Board has a non-executive chairman who takes an active role in board matters;
- the Company has an audit committee and a remuneration committee, each of which will consist of two non-executive directors and will meet regularly with executive directors in attendance by invitation. The audit committee has unrestricted access to the Group's auditors and ensures that auditor independence has not been compromised;
- all business activity is organised within a defined structure with formal lines of responsibility and delegation of authority, including a schedule of "matters referred to the board"; and
- regular monitoring of key performance indicators and financial results together with comparison of these against expectations.

10.2 *Audit Committee*

The following is a summary of the terms of reference under which the Company's Audit Committee operates. The Audit Committee is chaired by Gerald Carey and will include David Shalom.

The Audit Committee shall have at least one member and each member shall be a non-executive director. The Audit Committee shall meet at least two times in every year and any other time as required by either the chairman of the Audit Committee, the finance director of the Company or the external auditors of the Company. In addition, the Audit Committee shall meet with the external auditors of the Company (without any of the executives attending) at least once a year.

The Audit Committee shall, *inter alia*:

- monitor the financial reporting and internal control principles of the Company;
- maintain appropriate relationships with external auditors including considering the appointment and remuneration of external auditors;
- review all financial results of the Company, including all announcements in respect thereof before submission of the relevant documents to the Board;
- review and discuss (where necessary) any issues and recommendations of the external auditors including reviewing the external auditors' management letter and management's response;
- consider all major findings of internal operational audit reviews and management's response to ensure co-ordination between internal and external auditors;
- review the Board's statement on internal reporting systems and keep the effectiveness of such systems under review; and
- consider all other relevant findings and audit programmes of the Company.

The chairman of the Audit Committee shall report annually to the Board on behalf of the Company's shareholders on all matters within its duties and responsibilities. The Audit Committee shall compile a report to Shareholders on its activities to be included in the Company's annual report.

The Audit Committee is authorised to:

- investigate any activity within its terms of reference;
- seek any information it requires from any employee of the Company; and
- obtain, at the Company's expense, outside legal or other independent professional advice and to secure the attendance of such persons to meetings as it considers necessary and appropriate.

10.3 *Remuneration Committee*

The following is a summary of the terms of reference under which the Company's Remuneration Committee operates. The Remuneration Committee comprises David Mond and Gerald Carey.

The Remuneration Committee shall have at least one member who shall be a non-executive director. The Remuneration Committee shall meet at least two times in every year and any other time as required by either the chairman of the Remuneration Committee, the finance director of the Company or the external auditors of the Company.

The Remuneration Committee shall, *inter alia*:

- ensure that the executive directors are fairly rewarded for their individual contributions to the overall performance of the Company;
- consider the remuneration packages of the executive directors and any recommendations made by the managing director for changes to their remuneration packages including in respect of bonuses (including associated performance criteria), other benefits, pension arrangements and other terms of their service contracts and any other matters relating to the remuneration of or terms of employment applicable to the executive directors that may be referred to the Remuneration Committee by the Board;
- oversee and review all aspects of any share option schemes including the selection of eligible directors and other employees and the terms of any options granted;
- demonstrate to the Company's shareholders that the remuneration of the executive directors is set by an independent committee of the Board; and
- consider and make recommendations to the Board about the public disclosure of information about the executive directors' remuneration packages and structures in addition to those required by law or by the London Stock Exchange.

The chairman of the Remuneration Committee shall report formally to the Board on its proceedings after each meeting on all matters within its duties and responsibilities. The Remuneration Committee shall produce an annual report which will form part of the Company's annual report and consider each year whether such report should be put to the Shareholders for approval at the annual general meeting.

The Remuneration Committee is authorised to:

- investigate any activity within its terms of reference;
- seek any information it requires from any employee of the Company;
- assess the remuneration paid by other UK listed companies of a similar size in any comparable industry sector and to assess whether changes to the executive directors remuneration is appropriate for the purpose of making their remuneration competitive; and
- obtain, at the Company's expense, outside legal or other independent professional advice and to secure the attendance of such persons to meetings as it considers necessary and appropriate.

11 **United Kingdom Taxation**

The following paragraphs, which are based on current legislation, summarise the position of shareholders who are ordinarily resident in the UK for taxation purposes and who hold their shares as an investment.

11.1 *Taxation of dividends*

No tax will be withheld by the Company when it pays a dividend.

A UK resident individual shareholder who receives a dividend from the Company will be entitled to a tax credit, currently at the rate of 1/9th of the cash dividend paid (or 10 per cent. of the aggregate of the net dividend and related tax credit). The individual is treated as receiving for tax purposes gross income equal to the cash dividend plus the tax credit. The tax credit is set against the individual's tax liability on that gross income. The lower rate of income tax on dividend income is currently 10 per cent.

An individual shareholder who is not liable to income tax at a rate greater than the basic rate (currently 22 per cent.) will have no income tax to pay in respect of the dividend.

The higher rate of income tax on dividends is currently 32.5 per cent. This means that a shareholder who is a higher rate taxpayer (currently 40 per cent.) will have further income tax to pay at a rate of 22.5 per cent. of the cash dividend paid plus the related tax credit (or 25 per cent. of the net dividend). For example, a dividend of £90 will carry a tax credit of £10. The income tax payable by a higher rate taxpayer would be 32.5 per cent. of £100, namely £32.50 less the tax credit of £10 leaving a net tax liability of £22.50.

UK resident shareholders who do not pay income tax or whose liability to income tax on the dividend and related tax credit is less than the tax credit, including pension funds, charities and certain individuals are not generally entitled to claim repayment of any part of the tax credit associated with the dividend from the Inland Revenue.

A UK resident corporate shareholder will not generally be liable to corporation tax on any dividend received from the Company and the dividend in received and related tax credit will constitute franked investment income.

Whether a shareholder who is not resident in the UK for tax purposes is entitled to a tax credit in respect of dividends paid by the Company and to claim payment of any part of the tax credit will depend, in general, on the provisions of any double taxation convention which exists between the shareholder's country of residence and the UK. A non-UK resident shareholder may also be subject to foreign taxation on dividend income.

Persons who are not resident in the UK should consult their own tax advisers on the possible application of such provisions or what relief or credit may be claimed in the jurisdiction in which they are resident.

11.2 *Taxation of chargeable gains*

For the purpose of UK tax on chargeable gains, the issue of Ordinary Shares pursuant to the Placing will be regarded as an acquisition of a new holding in the share capital of the Company.

The Ordinary Shares so allotted will, for the purpose of tax on chargeable gains, be treated as acquired on the date of allotment. The amount paid for the Ordinary Shares will usually constitute the base cost of a shareholder's holding. If a Shareholder disposes of all or some of his Ordinary Shares a liability to tax on chargeable gains may, depending on their circumstances arise subject to, in the case of individuals and trustees, a deduction for so called taper relief the amount of which depends on various factors, in particular the length of the period of ownership of the shares.

Companies are not entitled to taper relief but are due indexation allowance which may also reduce the chargeable gain.

11.3 *Stamp duty and stamp duty reserve tax*

No stamp duty or stamp duty reserve tax (SDRT) will generally be payable on the issue of the New Ordinary Shares.

11.4 *Enterprise Investment Scheme and Venture Capital Trust ("VCT")*

The Company may qualify for EIS and VCT relief following the acquisition in order to finance the growth and development of the Enlarged Group. If the requirements of a "qualifying business" for the purposes of EIS and VCT relief are met, a subscription for new Ordinary Shares could have certain advantages for investors.

If you are in any doubt as to your tax position, or are subject to tax in a jurisdiction other than in the UK, you should consult your professional adviser immediately.

12 **Working Capital**

The Directors and the Proposed Directors are of the opinion, having made due and careful enquiry, that, taking into account the net proceeds of the Placing and the existing facilities available to the Enlarged Group, the Enlarged Group has sufficient working capital for its present requirements, that is at least 12 months from the date of this document.

16.1.1 the Company has agreed to pay WH Ireland a commission equal to 5 per cent. of the proceeds of the Placing so far as such proceeds relate to subscribers procured by WH Ireland (plus any applicable VAT) together with a corporate advisory fee of £75,000. 17 Related Party Transactions

Details of related party transactions of the Enlarged Group are described in respect of Carrwood in note 20 (page 34) to the Financial Information on Carrwood in Part III of this document and in respect of ClearDebt in note 13 (page 48) to the Financial Information on ClearDebt in Part V of this document.

Your attention is drawn in particular to the following contracts, all of which were entered into since 1 January 2002, and other matters which constitute related party transactions:

- 17.5 the payment by ClearDebt, on 10 October 2005, of £301,631.10 to Hodgsons Chartered Accountants (“Hodgsons”), a corporate and personal insolvency practice of which David Mond is the senior partner. During the period from ClearDebt’s incorporation to 30 September 2005, ClearDebt did not operate its own bank account. All of ClearDebt’s costs for this period were met by Hodgsons, all such amounts being lent by Hodgsons to ClearDebt by way of an interest free loan repayable on demand. The payment of £301,631.10 related to the aggregate of the balance of £192,274.00 which was outstanding at 30 June 2005 and the sum of £109,357.10 which was made available by Hodgsons during the period from 1 July 2005 to 30 September 2005. This payment satisfied the repayment of all amounts outstanding at 30 September 2005 in full. Save for non-material amounts in respect of payments in relation to certain utilities (for example gas, electricity and water rates), no further payments of this nature have been made by Hodgsons on behalf of ClearDebt.

Other than the Acquisition Agreement, none of the above transactions is considered material either in the context of the Proposals or in the context of the turnover of the Company in the relevant periods.
